

/// ENGINEERING ASSEMBLY WORK

PRODUCT OVERVIEW

Main Applications

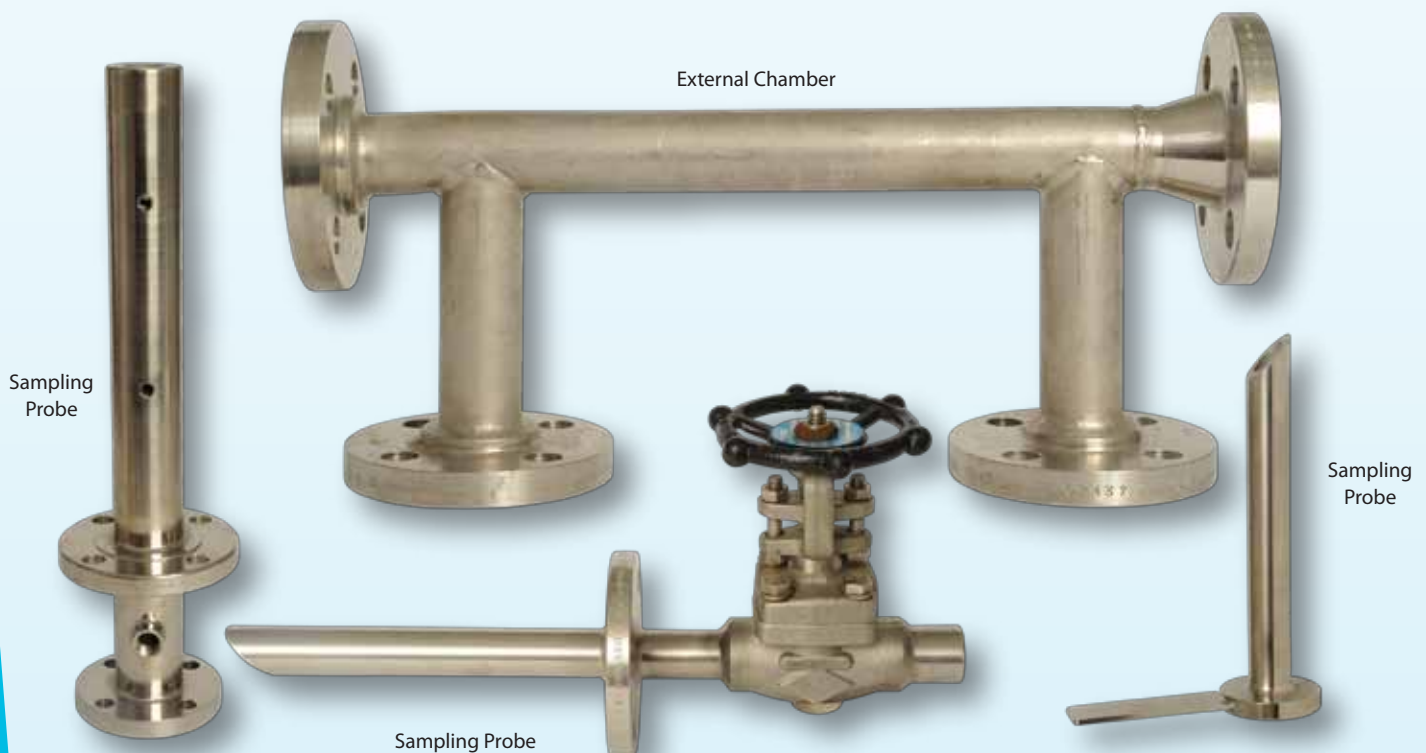

To withdraw samples from process pipe lines for periodic quality check and to Protect Level Sensor Probes which measures process level.

Key Features and Advantages

We provide a one source solution for key assembly parts, from:

- Technical advice to design according to customer's specifications and requirements.
- Material sourcing
- Fabrication

Our domain knowledge, access to materials and needed subcontractors and expert partners, will help you simplify the process and shorten the lead time you need to obtain the products required.
