

//// TEMPERATURE SENSORS

PRODUCT OVERVIEW

Main Applications

Temperature Measurement & Control for industrial applications.

Key Features and Advantages

Standard or customized temperature sensors which meet your requirements for different level of precision, ranges of temperatures and applications.

- Fabrication according to your specifications
- Technical advice to solve your existing challenges
- Wide range of equipment with different materials to suit your requirements for different ranges of temperature.
- "ATEX", FM/CSA Worldwide approved instrument suitable for use in explosion proof environment like Oil & Gas Industries
